This mark for 56 years

has been the sign of a superior revolver

In every country on the globe the Smith & Wesson trade-mark stands for the utmost care and precision in the making of revolvers and for the acme of accuracy and dependability in use.

Preferred by the champion shots of all countries. Merchants of all nations sell them because they give best satisfaction to customers. Write for interesting booklet, "The Revolver."

Rife Engine Company 2600 Trinity Bldg. NEW YORK
Cable Address—Rife, New York

El Ariete Hidráulico "RIFE"

El Aparato más Económico y Seguro que existe para elevar agua. Trabaja continuamente día y noche sin que nadie le cuide y sin hacer ningún gasto. Inestimable para Surtir de Agua a Casas Particulares, Establos, Invernáculos, Establecimientos Industriales y Pequeñas Poblaciones. Utiliza saltos desde 18 plgs. hasta 50 pies, sube el agua a 30 pies de altura por cada pie de altura del salto de que le toma y aprovecha el 90 por ciento de la energía del agua que recibe. El Ferrocarril Central Mexicano usa este Ariete para surtir de agua a sus locomotoras. Hemos vendido también muchos para el abasto de poblaciones, fábricas, fundiciones, irrigación, etc.

A. NACHMANN, Vice-Pres. and Sec.

ISSUED IN CONJUNCTION WITH

Western Union Telegraphic Code System

DURING the last few years the closer union of the telegraph and telephone services has presented to the business and social world far better facilities for the rapid and economical transmission of correspondence by wire and cable. In line with this advance, the publishers of the WESTERN UNION TELEGRAPHIC CODE SYSTEM have improved and enlarged this number of the INTERNATIONAL CABLE REGISTER OF THE WORLD, consummating a system by which the cost of domestic and intercontinental telegraphic communication is reduced to a minimum.

The Register is referred to by millions of persons each year. Not only are copies in the hands of tens of thousands of subscribers, but it also may be found on file in telegraph and cable offices, railroad and steamship company offices, hotels, chambers of commerce, and the embassies, legations and consulates of the United States throughout the world, for the free use of the business public. It is recognized as a standard work in every part of the globe and has become a necessity to business routine.

Of prime importance, and a distinct innovation, is the list of registered telegraphic and cable ad-

resses, appearing on pages 1003 to 1083. Prefixed to these are four-letter words, acceptable over all cable lines, by means of which complete firm names, street addresses and cities may be transmitted at the cost of but one word, obviously a vast saving. The fact that the words consist of but four letters, whereas the minimum in the WESTERN UNION TELEGRAPHIC CODE is five, absolutely avoids the possibility of confusion.

On pages 21 to 35 will be found a list of cities throughout the world prepared in accordance with the regulations of the last International Convention. By following these routing directions economy is attained, as the city of destination will be charged for as but one word, and any deviation from the rules entails unnecessary expenditure.

This is the Berne list, or official names of telegraph offices, and is also placed under the names of the cities, etc., in the alphabetical list of names, beginning on page 101 and ending on page 580. Special attention is directed to the fact that the combination of the city and its locality is only charged for as one word, but when the locality is in parentheses () the words contained therein must be paid for. For example, if a party in India wishes to cable an individual or firm in Bristol, Tennessee, and he should place the party's name and after it BRISTOL, the cable would be forwarded to Bristol, England; but by referring to page 23 he will find we have five Bristols, viz.: in Connecticut, Rhode Island, Tennessee, Virginia, and England. Bristol in Tennessee and Bristol in Virginia being divided only by the State line and the Telegraph Company's office being located in Tennessee, all cables for Bristol, Virginia, should be addressed to Bristol, Tennessee, and will be delivered from there, Bristol in England being recognized as THE "Bristol." To distinguish the other Bristols the Cable Companies decided some time ago to allow the names of the States and Territories in which they are

located to follow the name without charging extra for designation. The same rule applies to other cities in both hemispheres, and all messages addressed as per pages 21 to 35 in the first lines will be accepted as one word, even though they contain two or more words, except those in parentheses () as previously explained.

To avoid errors in cabling, a message should be clearly written, or, when feasible, typewritten, as the majority of errors are due to the fact that the operator is unable to decipher the writing, especially when using private messages or code words or language foreign to the operator. Read the rules and regulations on (colored paper at end of book) pages 1 and 2 and tariff rates on pages 3 to 13 and for Deferred Half Rate Service see page 14. These rates are subject to alteration without notice.

Rules for counting and charging Domestic Telegrams exchanged between one point and another within the United States of America and Canada, and for International Telegrams exchanged between Mexico and the aforementioned countries, adopted by the Telegraph Companies of North America and by the Mexican Government for the Mexican Telegraph Lines appear on pages 15 and 16 and the tariff rates from Great Britain and Ireland to the United States and Canada, Mexico, Central America, West Indies, Bermuda, Bahamas, South America and the Far East on pages 17 to 19 and to all parts of the world European System on pages 20 to 22.

Furthermore, the above mentioned cable rates have been thoroughly revised and include all changes up to April 15, 1912. It is suggested that these rates be consulted before sending cables, as in some instances more than one route is available and the charges differ.

Attention is directed to the business classifications, beginning on page 653, printed in English German, French, and Spanish, which must prove

of immeasurable assistance to people of different nationalities, thus enhancing the international character of the publication.

The cost of registering, or of securing space in the advertising pages, is small in view of the results obtained. The circulation each year reaches such vast proportions, the Register offers the advertiser at a nominal outlay a most profitable medium for introducing products to attention and making known their merits to domestic and foreign consumers.

While the publishers exercise every care in the compilation of cable registrations, business classifications, etc., they do not hold themselves responsible for typographical errors.

Subscribers are strongly urged to announce on their letter-heads that they use the WESTERN UNION TELEGRAPHIC CODE. Rubber stamps will be furnished gratis for the purpose. This will mean a material saving in telegraph and cable tolls to all concerned.

THE ONLY UNIVERSAL CIPHER SYSTEM

The development of trade and manufactures in the United States progresses with such remarkable rapidity each year that increasing facilities for its conduct between this country, Europe and the Far East are demanded and must be complied with. Competition to capture a larger share of foreign trade is now so keen that any improvement in communication, orally or by wire, is welcomed and supported. We refer particularly to the telegraph and telephone. The cost of telegraphing and cabling, while small in consequence of competition and intelligent handling, is an item that steadily commands the attention of Chambers of Commerce, Boards of Trade and, in fact, all commercial bodies. The men in control of vast telegraph and telephone systems are prob-

ably the ones most active in furnishing all the facilities in their power to the business public.

Telegraphic Codes have played an important part in this connection, but the requirements of the business world were not met in a satisfactory manner prior to the introduction of the WESTERN UNION TELEGRAPHIC CODE. Codes previously in existence, while better than none, were utterly inadequate to meet the needs developed by the gigantic strides made by financial, commercial, legal and industrial interests in both hemispheres during the score of years just past.

An unbiased comparison of the WESTERN UNION TELEGRAPHIC CODE with any other similar work will readily demonstrate the unquestionable superiority of the former. In order that users may obtain the utmost advantages to be derived from the WESTERN UNION TELEGRAPHIC CODE, the publishers suggest that they consult the index when coding messages, as in many instances the desired phrase may be found in the tables and special matter among the rear pages.

Adopted officially by the United States Government for the Embassies, Legations and Consulates throughout the world, and by the various departments of the Canadian Government, for the promotion of export trade, increased attention is directed to the WESTERN UNION TELEGRAPHIC CODE SYSTEM, the publishers of which have worked strenuously and successfully to reduce to a minimum the cost of telegraphic communication.

Copies of this most valuable publication have been placed not only in Western Union Telegraph Company offices in this country and Canada, but also in the offices of the Western Union, Direct United States and Anglo-American Telegraph Companies abroad, and in the offices of the West India and Panama, International Ocean Telegraph Company, Cuba Submarine, Central and South American, Distrito Federales, Eastern

Telegraph Company, Eastern Extension, and other important cable lines. The WESTERN UNION TELEGRAPHIC CODE *is known as the only UNIVERSAL CODE SYSTEM.* Attention is directed to the following copy of an official communication issued by the State Department of the United States.

DEPARTMENT OF STATE

WASHINGTON

THIS IS TO SAY: That copies of the INTERNATIONAL CABLE DIRECTORY OF THE WORLD and WESTERN UNION TELEGRAPHIC CODE are to be placed in the embassies, legations and consulates of the United States on, or soon after, July 1, 1902, for their use for the accommodation of Americans abroad, and for the promotion of commercial relations with the United States by residents of other countries.

(Signed) DAVID J. HILL,
Assistant Secretary of State.

April 22, 1902.

There is no other agency or publication extant that has furnished to the world a Code acknowledged to be without a competitor, besides guaranteeing its patrons a vast saving in the transmission of communications by wire as compared with any other similar work.

It is no longer necessary to keep on file a dozen or more codes. THE WESTERN UNION TELEGRAPHIC CODE answers every purpose and has supplanted the older, more expensive and less efficient publications.

The "Pocket" or "Traveler's" Edition is unique. It is an exact facsimile, in miniature, of the large WESTERN UNION TELEGRAPHIC CODE, reduced by photographic process to a size of 5 $\frac{1}{4}$ x 6 $\frac{1}{2}$ inches. The type, though necessarily small, is clear and distinct.

It is important to ascertain whether the code is on file at the particular telegraph or cable station desired, and also to inform your correspondents in advance that you intend to use the WESTERN UNION TELEGRAPHIC CODE when communicating with them by wire. In this way senders of messages will avoid unnecessary risks.

THE INTERNATIONAL CABLE DIRECTORY COM-

PANY is ever ready to secure for its clients information of value to users of the wires. In return it respectfully suggests when our patrons correspond with firms or individuals whose names are taken from the Register they will accord us the favor of mentioning the name of this publication. If this plan is generally adopted it will work to the common benefit of all concerned.

HERAUSGEGEBEN IN VERBINDUNG MIT DEM
Western Union Telegraphisches
Kode System

(Western Union Telegraphic Code System)

WÄHREND der letzten Jahre hat die engere Verbindung zwischen Telegraph- und Telefon- Dienst der Geschäfts- und Verkehrswelt weit bessere Vorteile für die rasche und ökonomische Übermittlung von Korrespondenz per Draht und Kabel dargeboten. Auf gleicher Stufe mit diesem Fortschritt haben die Verleger des WESTERN UNION TELEGRAPHIC CODE SYSTEM die Anzahl der Internationalen Kabel Verzeichnisse der Welt verbessert und vergrößert, indem sie ein System vollendet haben, durch welches die Kosten für einheimischen und überseeischen Verkehr bis auf ein Minimum reduziert sind.

Millionen benutzen das Verzeichnis jedes Jahr. Es sind nicht nur Exemplare desselben in Händen von mehr als zehntausend Abonnenten, sondern es liegt auch in den telegraphischen- und Kabel-, Eisenbahn- und Dampfschiffahrts-Bureaus, Hotels, Handelskammern, Gesandtschaften, Legationen und Konsulaten der Vereinigten Staaten über die ganze Welt, zum freien Gebrauch des Geschäftspublikums aus. Es ist als ein Musterwerk in jedem Teile des Globus anerkannt, und ist eine Notwendigkeit für Geschäftsroutine geworden.

Von höchster Wichtigkeit und ausgesprochener

Neuheit ist die Liste der registrierten telegraphischen und Kabeladressen, die auf Seite 1003 bis 1083 erscheint. Denen voran stehen "Vier-Buchstaben-Wörter," die von allen Kabel-Linien angenommen werden, durch welche komplette Firmen Namen, Strassenadressen und Städte zum Kostenpreise eines einzigen Wortes übertragen werden können, was offenbar eine grosse Ersparnis ist. Die Tatsache, dass die Wörter aus nur vier Buchstaben bestehen, während die Mindestanzahl im WESTERN UNION TELEGRAPHIC CODE fünf ist, vermeidet absolut die Möglichkeit einer Konfusion.

Auf Seiten 21 bis 351a ist eine Liste von Städten der ganzen Welt, die in Übereinstimmung mit den Satzungen der letzten internationalen Convention zusammengestellt ist. Wenn man diese Versandlinien befolgt, wird man viel ersparen, da der Bestimmungsort als nur ein Wort berechnet werden wird und jede Abweichung von den Regeln zieht unnötige Ausgaben nach sich.

Das ist die "Berne" Liste oder offizielle Namen der Telegraphen-Bureaus, die auch unter die Namen der Städte, etc., in der alphabetischen Namenliste, auf Seite 101 beginnend, und auf Seite 580 endigend, gestellt ist. Spezielle Aufmerksamkeit wird auf die Tatsache gelenkt, dass die Kombination von Stadt und ihrer Lage nur als ein Wort berechnet wird, wenn jedoch die Lage in Parenthese () gesetzt ist, muss für das in Parenthese stehende Wort bezahlt werden. Wenn, z.B. jemand in Indien einer Person oder Firma in Bristol, Tennessee zu kablern wünscht, und er den Namen der Person und nach demselben das Wort BRISTOL stellen würde, würde das Kabel nach Bristol, England gesandt werden; wenn er jedoch Seite 23 vergleicht, wird er finden, dass wir fünf Bristol haben, viz: in Connecticut, Rhode Island, Tennessee, Virginia und England. Bristol in Tennessee und Bristol in Virginia sind nur durch die Staatslinie getrennt und das Bureau der Telegraph Gesellschaft ist in

Tennessee; daher sollt'n alle Kabel fuer Bristol, Virginia nach Bristol, Tennessee adressiert sein und werden von dort aus abgeliefert werden, da Bristol in England als BRISTOL anerkannt ist. Um zwischen den anderen Bristols zu unterscheiden, haben die Kabel Gesellschaften sich vor einiger Zeit dahin entschieden, die Namen der Staaten und Territorien, in welchen sie liegen, dem Stadtnamen ohne Extraberechnung für das Bestimmungsland folgen zu lassen. Dieselbe Regel bezieht sich auf andere Städte auf beiden Hemisphären und alle Depeschen, die wie auf Seiten 21 bis 35 auf den ersten Linien angegeben, adressiert sind, werden als ein Wort angenommen werden, selbst wenn sie zwei oder mehrere Wörter enthalten, ausgenommen die in Parenthese, () wie oben erwähnt.

Um Irrtümer beim Kabeln zu vermeiden, sollte die Depesche deutlich, oder wenn möglich, mit der Schreibmaschine geschrieben, sein, da die meisten Irrtümer der Tatsache zuzuschreiben sind, dass der Telegraphist nicht imstande ist, die Schrift zu entziffern, besonders bei Kode-Wörtern oder einer Sprache, die dem Telegraphisten fremd ist. Man lese die Regeln und Regulationen auf Seiten 1 und 2 (buntes Papier am Ende des Buches) und Tarif Raten auf Seiten 3 bis 13 und für aufgeschobenen Dienst zu halben Raten siehe Seite 14. Diese Raten können ohne Benachrichtigung geändert werden.

Regeln für Zählen und Berechnen für einheimische Telegramme, die zwischen einem und dem anderen Punkt in den Vereinigten Staaten von Amerika und Canada ausgetauscht werden und für internationale Telegramme, die zwischen Mexico und den vorerwähnten Ländern ausgetauscht werden, und die von den Telegraph Companies von Nord Amerika und von der mexikanischen Regierung für die mexikanischen Telegraph Linien adoptiert sind, erscheinen auf Seiten 15 und 16 und die Tarif Raten von Gross Britannien und Irland nach den Vereinigten

Staaten und Canada, Mexiko, Central Amerika, West Indien, Bermuda, Bahamas, Süd Amerika und dem Orient auf Seiten 17 bis 19 und nach allen Teilen der europäischen Welt Systeme auf Seiten 20 bis 22.

Ausserdem sind die oben erwähnten Kabel Raten alle gründlich revidiert worden und schliessen alle Änderungen bis 15. April, 1912 ein. Es wird diesseits empfohlen, dass man diese Raten ehe man Kabel sendet, durchgeht, da in einigen Fällen mehr als ein Weg zulässig ist und die Preise differieren.

Aufmerksamkeit wird auf die Geschäfts-Klassifikation, die auf Seite 653 beginnt, und die englisch, deutsch, französisch und spanisch gedruckt ist, gelenkt; dieselbe muss sich als von unermesslichem Beistand für Leute von verschiedenen Nationalitäten erweisen, wodurch der internationale Charakter der Publikation erhöht wird.

Die Kosten für Registrierung oder Platz auf den Anzeigen-Seiten sind gering angesichts der erzielten Resultate. Die Cirkulation erreicht jedes Jahr solch weite Proportionen, dass das Register dem der anonciert, bei einer geringen Auslage, ein höchst profitables Medium, um auf seine Produkte Aufmerksamkeit zu lenken und ihre Verdienste dem einheimischen und fremden Konsumnten bekannt zu machen, bietet.

Trotzdem die Verleger jede nur mögliche Sorgfalt bei der Zusammenstellung der Kabel Registrationen, Geschäftsklassifikationen etc., ausüben, wollen sie nicht für typographische Fehler verantwortlich gemacht sein.

Abonnenten werden dringendst ersucht, auf ihren Briefbogen anzuzeigen, dass sie den WESTERN UNION TELEGRAPHIC CODE gebrauchen. Gummistempel werden für diesen Zweck gratis geliefert. Das stellt eine bedeutende Ersparnis in Telegraph und Kabelgebühren, für alle Beteiligten dar.

DAS EINZIGE UNIVERSELLE ZIFFERSYSTEM

Die Entwicklung des Handels und der Fabrikationen in den Vereinigten Staaten schreiten mit solch bemerkenswerter Schnelligkeit jedes Jahr voran, dass vermehrte Facilitäten für Übertragung desselben zwischen unserm Land, Europa and dem Orient verlangt werden und diesem Verlangen muss Rechnung getragen werden. Die Konkurrenz, einen grösseren Anteil des auswärtigen Handels einzufangen, ist so bedeutend, dass jede Verbesserung in dem Verkehr, mündlich oder per Draht, willkommen geheissen und unterstützt wird. Wir beziehen uns besonders auf Telegraph und Telephon. Die Kosten für Telegraphieren und Kabeln, trotzdem sie wegen der erhöhten Konkurrenz und durch geeignete Handhabung gering sind, sind ein Posten, der ständig die Aufmerksamkeit der Handelskammern, Handelsdirektoren und eigentlich aller kommerziellen Verwaltungen auf sich hat. Die Männer, die grosse Telegraph- und Telephon-Systeme kontrollieren, sind in aller Wahrscheinlichkeit diejenigen, die am meisten tätig sind, alle Facilitäten, die in ihrer Kraft stehen, der Geschäftswelt zu liefern.

Telegraphische Kodes haben in dieser Verbindung eine wichtige Rolle gespielt, aber die Bedürfnisse der Geschäftswelt wurden vor der Einführung des WESTERN UNION TELEGRAPHIC CODE nicht in zufriedenstellender Weise gedeckt. Die Kodes, die vorher bestanden, -trotzdem besser als gar keine-, waren äusserst unzulänglich die Bedürfnisse, die durch die riesenhaften Schritte, die in finanziellen, kommerziellen, juristischen und industriellen Interessen auf beiden Hemisphären während der jüngst verflossenen Jahre gemacht wurden, zu decken.

Ein vorurteilsfreier Vergleich des WESTERN UNION TELEGRAPHIC CODE mit anderen, ähnlichen

Werken wird leicht die unfragliche Überlegenheit des letzteren demonstrieren. Damit die Gebraucher die grössten Vorteile, die von dem WESTERN UNION TELEGRAPHIC CODE hergeleitet werden können, erlangen, schlagen die Verleger vor, dass man bei der Zusammenstellung von Kabeln im Index nachsieht, da in vielen Fällen der gewünschte Satz in den Tabellen und besonderem Text in den letzten Seiten gefunden werden mag.

Vermehrte Aufmerksamkeit ist auf das WESTERN UNION TELEGRAPHIC CODE SYSTEM, dessen Verleger eifrig und erfolgreich gearbeitet, um die Kosten von telegraphischen Mitteilungen auf ein Minimum zu reduzieren, gerichtet, da dasselbe offiziell von der Regierung der Vereinigten Staaten für Gesandtschaften, Legationen und Konsulate über die ganze Welt und durch verschiedene Departments der kanadischen Regierung für die Förderung des Exporthandels adoptiert ist.

Exemplare dieser höchst wertvollen Publikation sind nicht nur in den Bureaus der Western Union Telegraph Company in diesem Lande und Canada, sondern auch in den Bureaus der Western Union, Direct United States und Anglo-American Telegraph Companies jenseits des Oceans und in den Bureaus der West India und Panama, International Ocean Telegraph Company, Cuba Submarine, Central and South American Distrito Federales, Eastern Telegraph Company, Eastern Extension und anderen wichtigen Kabel Linien. Der WESTERN UNION TELEGRAPHIC CODE ist als das einzige UNIVERSAL CODE SYSTEM bekannt. Aufmerksamkeit ist auf die folgende Kopie einer offiziellen Mitteilung von dem "State Department" der Vereinigten Staaten gelenkt:

DEPARTMENT DES STAATES

WASHINGTON

HIERMIT WIRD BEKANNT GEGEBEN: dass Kopieen der INTERNA-

TIONAL CABLE DIRECTORY OF THE WORLD and WESTERN UNION TELEGRAPHIC CODE in die Gesandtschaften, Legationen und Konsulate der Vereinigten Staaten am oder bald nach dem 1. Juli, 1902 für den Gebrauch und die Bequemlichkeit der Amerikaner, die jenseits des Oceans sind, und für die Hebung der kommerziellen Beziehungen der Vereinigten Staaten mit den Bewohnern der anderen Länder, zu legen sind.

(Gezeichnet) DAVID J. HILL,
Assistant Secretary of State.

Den 22. April, 1902.

Es giebt keine andere hervorragende Agentur oder Publikation, die der Welt einen Kode, der anerkannt ohne Konkurrenz ist, gegeben hat, und der ausserdem seinen Gönnern eine grosse Ersparnis in der Uebermittlung von Mitteilungen per Draht garantiert, im Vergleich mit irgend welchem anderen, ähnlichen Werk.

Es ist nicht mehr nötig ein Dutzend oder mehr Kodes zu halten. DER WESTERN UNION TELEGRAPHIC CODE entspricht jedem Zweck und hat die älteren verdrängt, die kostspieliger, und keine so wirksame Publikation sind.

Die "Taschen" Ausgabe oder die Ausgabe für "Reisende" ist einzig. Sie ist eine genaue Wiedergabe in Miniatur des grossen WESTERN UNION TELEGRAPHIC CODE, durch photographischen Prozess zu einer Grösse von $5\frac{1}{2} \times 6\frac{1}{4}$ Zoll. reduziert. Der Druck, obgleich er notwendiger Weise klein sein muss, ist klar und deutlich.

Es ist wichtig zu vergewissern, ob der Kode in der besonderen Telegraph oder Kabel Station zur Hand ist und auch, dass Sie Ihre Korrespondenten im Vornherein benachrichtigen, dass Sie beabsichtigen, den WESTERN UNION TELEGRAPHIC CODE zu gebrauchen, wenn Sie sich per Draht mit denselben in Verbindung setzen. Auf diese Weise werden die Absender von Depeschen unnötiges Risiko vermeiden.

DIE INTERNATIONAL CABLE DIRECTORY COMPANY ist immer bereit, für ihre Kunden wertvolle Informationen für Leute, die telegraphieren, zu sichern. Als Gegenleistung erlaubt sich dieselbe ergebenst vorzuschlagen, dass unsere Gönner, wenn sie mit Firmen oder Personen, deren Namen von dem Verzeichnis genommen sind, korrespondieren, uns den Gefallen erweisen wollen, den Namen dieser Publikation zu erwähnen. Wenn dieser Plan allgemein adoptiert wird, wird er zum allgemeinen Nutzen aller Beteiligten sein.

ISSU EN CONJONCTION AVEC LE

Système du Code Télégraphique
"Western Union"

PENDANT ces quelques dernières années l'union plus étroite des services des télégraphes et des téléphones a présenté aux affaires et au monde social des facilités bien meilleures pour la transmission rapide et économique des correspondances par fil et cable. En considération de ce progrès, les éditeurs du système de CODE DE L' WESTERN UNION TELEGRAPHIC ont amélioré et élargi ce numéro de l'Indicateur du cable à travers le monde, accomplissant un système par lequel on a réduit au minimum, les frais de communication télégraphique à l'intérieur et à l'extérieur.

Des millions de personnes ont à consulter l'indicateur chaque année. Non seulement des copies en sont entre les mains de milliers de souscripteurs, mais on en trouve aussi exposées dans les bureaux des télégraphes et cables, des compagnies de chemin de fer et de vapeurs, dans les hôtels, dans les chambres de commerce et dans les ambassades, les légations et les consulats des Etats Unis par tout le monde, pour l'usage gratuit du public des affaires. Il est reconnu comme un travail modèle dans toutes les parties du globe et est devenu une nécessité dans la routine des affaires.

Une innovation de première importance et mar-

quée, c'est la liste des adresses enregistrées, télégraphiques et par cable, figurant aux pages 1003 à 1083. Fixés à celles-ci sont des mots en quatre lettres acceptables sur toutes les lignes du cable, aux moyens desquelles les noms complets des maisons de commerce et établissements, les adresses des rues et des villes peuvent être transmis aux frais d'un mot unique, évidemment une énorme économie. Le fait que les mots ne consistent qu'en quatre lettres, tandis que le minimum dans le CODE DE L' WESTERN UNION TÉLÉGRAPHIQUE est de cinq, évite absolument toute confusion.

Aux pages 21 à 35 on trouvera une liste des villes par tout le monde, préparée en concordance avec les règlements de la dernière convention Internationale. En suivant ces directions pratiques, on atteindra une économie, comme la ville de destination ne sera taxée que pour un seul mot et que toute déviation des règlements emporte un dépense non nécessaire.

Cette liste est celle de Berne ou des noms officiels des bureaux de télégraphes et elle est aussi placée sous les noms des villes etc., dans la liste alphabétique des noms commençant page 101 et finissant page 580. Spéciale attention est attirée sur le fait que la combinaison de la ville et de sa localité n'est taxée que pour un mot, excepté quand la localité est entre parenthèses () les mots y contenus devant être payés en plus. Par exemple si une partie dans l'Inde désire cabler à un individu ou à un établissement à Bristol, Tennessee, et si on place le nom de la partie et ensuite de Bristol, le cable sera transmis à Bristol, Angleterre. Mais en se reportant à la page 23 on trouvera que nous avons cinq Bristols, voire: en Connecticut, Rhode Island, Tennessee, Virginia et Angleterre. Bristol au Tennessee et Bristol en Virginia étant seulement divisés par une ligne d'Etat et le bureau de la compagnie du Télégraphe étant situé au Tennessee, tous les cables pour Bristol, Virginia, devront être adressés à Bristol, Tennessee, et de là ils seront transmis à destination.

Bristol en Angleterre étant reconnue comme LE BRISTOL pour distinguer les autres Bristols, les compagnies de cable ont décidé depuis quelque temps d'admettre que les noms des Etats et Territoires, dans lesquels ils sont situés puissent suivre le nom sans surtaxe pour cette désignation. La même règle s'applique aux autres villes dans les deux hémisphères et tous messages adressés comme il est dit, pages 21 à 35, en les premières lignes, seront acceptés pour en seul mot, même quand ils contiendront deux mots au plus, excepté pour les lieux placés entre parenthèses () comme on l'a expliqué précédemment. Pour éviter toutes erreurs en cablant, un message devra être écrit clairement ou bien quand il sera faisable, imprimé, attendu que les erreurs en majorité sont dues au fait que l'opérateur ne peut déchiffrer l'écriture, spécialement quand on s'est servi, de mot de convention ou d'un langage étranger à l'opérateur. Lisez les règles et règlements (papier de couleur à la fin du livre) pages 1 et 2 et tarif des taxes pages 3 à 13 et pour référence au service à moitié prix voyez page 14. Ces taxes sont sujettes à changement sans avis préalable.

Les règles pour compter et taxer les télégrammes à l'intérieur entre un point et un autre dans les Etats Unis d'Amérique et le Canada et pour les télégrammes internationaux échangés entre Mexico et les pays ci-dessus nommés, adoptées par les compagnies télégraphiques du Nord de l'Amérique et par le gouvernement Mexicain pour les lignes télégraphiques Mexicaines figurent aux pages 15 et 16 et le tarif des taxes de Grande Bretagne et Irlande aux Etats Unis et Canada, Mexico, Amérique Centrale, West Indies, Bermuda, Bahamas, Amérique de Sud et l'Orient aux pages 17 à 19 et pour toutes les parties du monde Européen on trouvera le système aux pages 20 à 22.

En outre, les tarifs des cables ont été soigneusement révisés et comprennent tous les changements jusqu'au 15 Avril, 1912. Il est bien conseillé de consulter ces tarifs avant d'envoyer les cables,

comme, en maints exemples, plus d'une route est praticable et que les taxes diffèrent.

Grande attention doit être attachée aux classifications d'affaires, commençant à la page 653, imprimées en Français, Anglais, Allemand et Espagnol, qui serviront d'un immense secours aux peuples de différentes nationalités en faisant ainsi priser le caractère international de la publication.

La dépense pour être enregistré ou pour obtenir un espace dans les pages d'annonces est minime en vue des résultats acquis. La circulation chaque année, atteint de si vastes proportions, que le "Register" offre à celui qui annonce, pour sa dépense nominale, le plus profitable intermédiaire, qui puisse exposer ses produits à l'attention publique et en faire connaître les mérites aux consommateurs du pays et de l'étranger.

Tandis que les éditeurs apportent le plus grand soin à la compilation des règles et indications des cables, aux classifications des affaires, etc., ils ne se tiennent pas responsables des erreurs typographiques.

Les souscripteurs sont instamment priés d'annoncer dans leurs en-têtes de lettres qu'ils font usage du CODE DE L' WESTERN UNION TÉLÉGRAPHIQUE. Des timbres spéciaux seront fournis gratis pour cela. Pour tous ceux que cela concerne, il y aura une économie matérielle de frais de télégraphes et cables.

LE SEUL UNIVERSEL SYSTÈME CHIFFRÉ

Le développement du commerce et des manufactures dans les Etats Unis fait des progrès si remarquables et si rapides qu'un accroissement des facilités de son extension entre ce pays-ci, l'Europe et l'Orient est réclamé et qu'on doit y faire droit. La concurrence pour saisir une partie plus large du commerce étranger est maintenant

si ardente que toute amélioration de communication, oralement ou par fil télégraphique est bien venue et appuyée. Nous faisons allusion particulièrement au télégraphe et à la téléphonie. Le coût de la transmission par télégraphe et câble, quoique minime en conséquence de la concurrence et de sa manoeuvre intelligente est un point qui demande constamment l'attention des Chambres de commerce, des conseils du marché public et de tous les corps commerciaux effectivement. Les hommes qui ont sous leur contrôle les vastes systèmes télégraphiques et téléphoniques sont probablement les plus actifs à fournir toutes les facilités en leur pouvoir au public des affaires.

Les codes télégraphiques ont joué un rôle important sous ce rapport, mais les besoins des affaires du monde n'auraient pas rencontré une solution satisfaisante avant l'introduction du CODE DE L' WESTERN UNION TÉLÉGRAPHIQUE. Les Codes antérieurement en existence, quoique meilleurs que rien, étaient tout-à-fait incapables de répondre aux besoins développés par les pas gigantesques faits par les intérêts financiers, commerciaux, légaux et industriels dans les deux hémisphères, dans le cours de ces dernières vingtaines d'années.

Une impartiale comparaison du CODE DE L' WESTERN UNION TÉLÉGRAPHIQUE avec toute autre oeuvre similaire, démontrera la supériorité hors de question du dit code. Afin que ceux appelés à s'en servir puissent obtenir les plus grands avantages à dériver du CODE DE L' WESTERN UNION TÉLÉGRAPHIQUE les éditeurs leur suggèrent de consulter l'index au moment de rédiger les messages, comme dans beaucoup de cas la phrase désirée se trouvera dans les tables, ainsi que la matière spéciale parmi les dernières pages.

L'adoption par les gouvernements des Etats Unis à titre officiel pour les Ambassades, les Légations et les Consuls et aussi par les différents dé-

partements du Gouvernement Canadien, pour l'extension du commerce d'exportation, du système de CODE DE L' WESTERN UNION TÉLÉGRAPHIQUE a accru l'attention dirigée vers ce code, dont les éditeurs ont travaillé énergiquement et avec succès pour réduire au minimum le cout de la communication télégraphique.

Des copies de cette publication de la plus haute valeur ont été placées non seulement dans les bureaux de la compagnie Western Union Télégraph en ce pays et au Canada, mais aussi dans les bureaux de Western Union, Direct United States et Anglo-American Telegraph compagnies au dehors, et dans les bureaux de West India et Panama, International Ocean Telegraph Company, Cuba Submarine, Central and South American, Distrito Federales, Eastern Telegraph Company, Eastern Extension et autres importantes lignes de câbles. Le CODE DE L' WESTERN UNION TÉLÉGRAPHIQUE est reconnu comme le seul système de code universel. L'attention est recommandée sur la copie suivante d'une communication issue par le Département d'Etat des Etats Unis.

DEPARTEMENT D'ETAT

WASHINGTON

CECI EST POUR DIRE: que les copies du DIRECTORY par le monde de L'INTERNATIONAL CABLE ET DU CODE TÉLÉGRAPHIQUE DE L' WESTERN UNION devront être placées dans les Ambassades, les Légations et les Consuls des Etats Unis le 1er Juin, 1901 ou bientôt après, pour l'usage et la commodité des Américains et pour l'extension des relations commerciales avec les Etats Unis par les résidents des autres pays.

(Signé) DAVID J. HILL,
Assistant Secretary of State.

22 Avril, 1902.

Il n'y a pas d'autre agence ou publication en existence qui ait fourni au monde un Code reconnu pour être sans compétiteur, en outre qu'il garantit à ses clients une vaste économie dans la transmission par fil ou câble, si on la compare à tout autre travail similaire.

Il n'est désormais plus nécessaire de conserver en liasses une douzaine ou plus de Codes. LE CODE DE WESTERN UNION TELEGRAPHIC répond à toutes fins et a supplanté les vieilles publications, plus coûteuses et moins efficaces.

L'édition de poche et de voyage est unique. C'est un exact fac simile, en miniature, du large CODE DE L' WESTERN UNION TÉLÉGRAPHIQUE réduit par un procédé photographique à un format de cinq pouces et demi sur 6½. Le caractère bien que nécessairement petit, est clair et distinct.

Il est important de s'assurer si le Code est en

exposition à la station particulière de télégraphe ou câble ou l'on désire s'adresser et aussi d'informer à l'avance ses correspondants que l'on entend se servir de l' WESTERN UNION TELEGRAPHIC CODE en communiquant avec eux par dépêche. De cette façon les envoyeurs de messages éviteront des risques non nécessaires.

La Compagnie du DIRECTORY DU CABLE INTERNATIONAL est toujours prête à fournir à ses clients des informations valables pour ceux qui font usage des fils et câbles télégraphiques. Nous demandons respectueusement à nos clients, quand ils correspondent avec des établissements dont les noms sont tirés de notre Indicateur, de nous accorder la faveur de mentionner le nom de cette publication. Si ce plan est adopté, généralement il tournera au profit commun de tous ceux qui y sont intéressés.

PUBLICADO EN CONJUNCIÓN CON EL

Sistema de Código Telegráfico de
Western Union

LA unión más íntima del telégrafo y el teléfono durante estos últimos años ha presentado al mundo comercial y social grandes conveniencias para la transmisión de correspondencia por alambre y por cable. De acuerdo con este adelanto, los editores del Sistema del CÓDIGO TELEGRÁFICO DE WESTERN UNION, han mejorado y aumentado esta edición del REGISTRO DE CABLE INTERNACIONAL DEL MUNDO, perfeccionando un sistema por medio del cual el costo de comunicaciones domésticas y entre continentes se ha reducido al minimum.

Este Registro lo usan millones de personas durante el año. No solo se encuentran copias del mismo en manos de diez miles de suscritores, sino que tambien se encuentra en todas las oficinas de Telégrafo y Cable, oficinas de vapores y ferrocarriles, hoteles, cámaras de comercio, y en las embajadas y consulados de los Estados Unidos en todas partes del mundo, para el libre uso del público comercial. Dicho Registro está reconocido en el mundo entero como una gran obra y es hoy una necesidad en la rutina de los negocios.

De gran importancia y utilidad es la lista de direcciones telegráficas y cablegráficas registradas,

que aparece en las páginas 1003 á 1083. Como prefijo á estas direcciones se encuentran palabras de cuatro letras, aceptadas en todas las líneas cablegráficas, pudiendose transmitir de este modo el nombre completo de una casa, calle y ciudad, al costo de una sola palabra, lo cual constituye una gran economía. El hecho de que las palabras constan de cuatro letras evita toda confusión posible, pues el minimun en el CÓDIGO TELEGRÁFICO DE WESTERN UNION son cinco letras.

En las páginas 21 á 35 se encuentra una lista de todas las ciudades del mundo, la que ha sido compilada de acuerdo con las reglas de la última Convención Internacional. Siguiendo estas instrucciones se evitarán gastos innecesarios, pues la ciudad á la que se desea enviar la comunicación constituirá solo una palabra y se pagará como tal.

Esta es la lista Berne, ó nombres oficiales de oficinas de telégrafo y aparece tambien bajo el nombre de las Ciudades, etc., en la lista alfabética de nombres que comienza en la página 101 y termina en la página 580. Llamamos atención especial al hecho de que la combinación del nombre de la ciudad y su localidad constituye solo una palabra pagándose como tal, pero cuando el nombre de la localidad se encuentra en paréntesis () las palabras contenidas en el mismo deberán pagarse. Por ejemplo, si una persona en India desea cablegrafiar á una casa ó individuo en Bristol, Tennessee, y escribe la palabra BRISTOL despues del nombre de la casa ó individuo á quien va á transmitirse el cable, éste sería transmitido á Bristol, Inglaterra. Pero aludiendo á la página 23 encontrará que tenemos los Bristols siguientes: en Connecticut, Rhode Island Tennessee, Virginia, y en Inglaterra. Bristol en Tennessee y Bristol en Virginia están separados por el límite divisorio del Estado y la oficina de la Compañía Telegráfica estando en Tennessee, todos los cables para Bristol, Virginia, deberán ser dirigidos á Bristol, Tennessee, de donde serán entregados

á su destino. *Bristol* en Inglaterra se reconoce como El "*Bristol*." Pare distinguir los otros *Bristols* las Compañías del Cable decidieron hace algun tiempo permitir el nombre del Estado y Territorio en el cual se encuentre sin hacer cargo alguno por los mismos. La misma regla es aplicable á otras ciudades en ambos hemisferios, y todas las comunicaciones dirigidas de acuerdo con las páginas 21 á 35 en la primera línea de la comunicación serán aceptadas como una sola palabra, aun cuando contengan más de una palabra á excepción de cuando éstas se encuentran en paréntesis () como antes se ha dicho.

Para evitar errores al enviar un cablegrama, la comunicación ó mensaje deberá escribirse claramente y cuando sea posible, deberá escribirse en una máquina de escribir para mayor claridad; pues la mayor parte de los errores en cablegramas son debido á que muchas veces el empleado que hace la transmisión no puede descifrar exactamente lo que se ha escrito, especialmente cuando se usan palabras de algún código, ó tambien cuando se escribe en un idioma extranjero á la lengua nativa del empleado que va á transmitir el mensaje. Léanse las reglas y reglamentos en las páginas (en papel de color al final del libro) 1 y 2 y la tarifa de precios en las páginas 3 á 13, y para Servicio Aplazado á Mitad de Precio véase la página 14. Estos precios están sujetos á alteraciones sin aviso.

Las reglas para contar y cobrar por Telegramas Domésticos entre puntos en los Estados Unidos de América y Canada, y para Telegramas Internacionales entre Mexico y los países antes mencionados, adoptadas por las Compañías Telegráficas de Norte América y por el Gobierno Mejicano para las Líneas Telegráficas de Mexico, aparecen en páginas 15 á 16 y la tarifa de precios de la Gran Bretaña é Irlanda á los Estados Unidos y Canada, Mexico, América Central, Indias Occidentales, Ber-

muda, Bahamas, Sur América y al Oriente, en las páginas 17 á 19, y para todas partes del mundo, Sistema Europeo, en las páginas 20 á 22.

Además, los precios arriba mencionados han sido revisados cuidadosamente é incluyen todos los cambios hasta Abril 22 de 1912. A consejamos que se consulten estos precios antes de enviar un cable, pues en casi todos los casos la transmisión puede hacerse por más de una ruta y desde luego que el precio varía.

Llamamos especial atención á la clasificación comercial comenzando en la página 653, en Inglés, Alemán, Francés y Español, que desde luego ha de ser de gran utilidad á personas de nacionalidades distintas, acrecentando de este modo el carácter internacional de esta publicación.

El costo del registro ó de obtener espacio en las páginas de anuncios, es insignificante si se tienen en cuenta los resultados obtenidos. La circulación anual es tan inmensa que el Registro proporciona á los anunciantes un magnífico medio para introducir y dar á conocer sus productos á los consumidores domésticos y extranjeros por poco dinero.

Aunque los Editores ejercen gran cuidado al compilar los registros cablegráficos, clasificaciones comerciales, etc., no son responsables por errores tipográficos.

Aconsejamos á los suscritores que anuncien en el encabezamiento de sus cartas que usan el CÓDIGO TELEGRÁFICO DE WESTERN UNION. Suministraremos un sello de goma para este fin. Haciendo esto se practicará una gran economía en gastos de cables.

EL UNICO SISTEMA UNIVERSAL DE CIFRA

El desarrollo de los negocios y manufacturas en los Estados Unidos progresa con una rapidez tal todos los años, que la demanda por mayores

facilidades y conveniencias para el manejo del comercio entre este país, Europa y el Oriente es hoy más grande que nunca y la misma debe ser satisfecha. La Competencia para conseguir una gran parte del negocio extranjero es tan activa que cualquier adelanto en comunicaciones, bien sea oral ó por alambre, es siempre bienvenido y acogido con agrado. Nos referimos particularmente al telégrafo y al teléfono. El costo de cablegrafiar y telegrafiar, aunque pequeño, de bido á la competencia y habilidad en la aplicación de estos adelantos, es asunto que continuamente ocupa la atención de Cámaras de Comercio, Juntas de Comercio y todos los cuerpos comerciales. Los hombres en cuyas manos se encuentra el manejo de las grandes líneas telegráficas y telefónicas, son los que demuestran mayor actividad en suministrar al público comercial todas las ventajas y conveniencias posible.

Los Códigos telegráficos han desempeñado un papel muy importante en esta conexión, pero los requisitos del mundo comercial no fueron debidamente satisfechos hasta que se introdujo el CÓDIGO TELEGRÁFICO WESTERN UNION. Los Códigos previamente en existencia, aunque útiles, eran completamente inadecuados para satisfacer las necesidades y demanda del gigantesco desarrollo de los intereses financieros, comerciales, legales é industriales de ambos hemisferios durante estos últimos años.

Una comparación imparcial del CÓDIGO TELEGRÁFICO WESTERN UNION con otra obra similar demostrará la superioridad de dicho código sobre los demás. De modo que las personas que usan el CÓDIGO TELEGRÁFICO WESTERN UNION puedan obtener mayores ventajas del mismo, los editores aconsejan que se consulte el índice antes de traducir el mensaje que se desea transmitir en palabras del código, pues en muchos casos las frases y expresiones

requeridas para el mensaje pueden encontrarse en las tablas y asuntos especiales que aparecen en las últimas páginas.

El SISTEMA DE CÓDIGO TELEGRÁFICO WESTERN UNION, los editores del cual han laborado asiduamente para reducir al minimum el costo de comunicaciones telegráficas, ha sido oficialmente adoptado por el Gobierno de los Estados Unidos para las Embajadas, Legaciones y Consulados en todas partes del mundo, así como también por el Gobierno de Canadá, para fomentar el comercio de exportación.

Copias de esta valiosa obra se encuentran no solamente en las oficinas de la Compañía de Telégrafos Western Union en este país y Canadá, sino que también en las oficinas de las siguientes compañías: Western Union, Direct United States & Anglo-American Telegraph Companies, West India & Panamá, International Ocean Telegraph Company, Cuba Submarine, Central & Sur América, Distritos Federales, Eastern Telegraph Company, Eastern Extension, y de otras líneas importantes. El CÓDIGO TELEGRÁFICO WESTERN UNION está reconocido como el único SISTEMA DE CÓDIGO UNIVERSAL. Llamamos especial atención á la siguiente copia de una comunicación oficial del Departamento de Estado de los Estados Unidos.

DEPARTAMENTO DE ESTADO

WASHINGTON

ESTA ES PARA MANIFESTAR: Que copias del DIRECTORIO DE CABLE INTERNACIONAL DEL MUNDO y del CÓDIGO TELEGRÁFICO WESTERN UNION serán archivadas en las embajadas, legaciones y consulados de los Estados Unidos en ó pronto despues de Julio 1 de 1902, para el uso y conveniencia de Americanos en el extranjero y para el fomento de las

relaciones comerciales entre los Estados Unidos y residentes de otros países.

(Firmado) DAVID J. HILL,
Assistant Secretary of State.

Abril 22 de 1902.

No hay en existencia otra agencia ú obra que haya proporcionado al mundo un Código sin rival, además de garantizar una gran economía en la transmisión de comunicaciones por alambre comparada con otras obras similares.

Con el CÓDIGO TELEGRÁFICO WESTERN UNION no hay necesidad de tener en manos una docena ó mas de distintos códigos, pues éste llena satisfactoriamente todos los requisitos y ha tomado el lugar de otros códigos más costosos y menos eficaces.

La Edición "De Bolsillo" ó "Para Viajeros" es la única en su género. Es una reproducción exacta, en miniatura, de la obra completa del CÓDIGO TELEGRÁFICO WESTERN UNION reducida por medio de un proceso fotográfico, á un tamaño de

5¼ x 6½ pulgadas. El tipo, aunque necesariamente pequeño, es claro y distinto.

Es muy importante averiguar si hay una copia de este código en archivo en la estación telegráfica ó cablegráfica á la cual se intentan enviar comunicaciones amenudo, así como tambien informar á sus corresponsales con anticipación de que se intenta usar el CÓDIGO TELEGRÁFICO WESTERN UNION al comunicarse con ellos por alambre. De este modo se evitarán riesgos innecesarios al enviar mensajes.

LA COMPAÑIA DEL DIRECTORIO INTERNACIONAL DE CABLE está siempre dispuesta á proporcionar á sus favorecedores valiosa información para comunicaciones por alambres, solo exigiendo en cambio que cuando nuestros clientes se comuniquen con alguna casa á personas cuyos nombres se hayan obtenido de este Registro, nos dispensen la cortesía de hacer mención á nuestra publicación. Este plan proporcionará beneficio mutuo á todas las partes interesadas.

A FEW ENDORSEMENTS OF THE WORK

STATE DEPARTMENT BULLETIN, UNITED STATES

THIS IS TO SAY:

That copies of the **International Cable Directory of the World and Western Union Telegraphic Code** are to be placed in the Embassies, Legations and Consulates of the United States on, or soon after, July 1, 1902, for their use, for the accommodation of Americans abroad, and for the promotion of commercial relations with the United States by residents of other countries.

WASHINGTON.

[Signed] DAVID J. HILL,
Assistant Secretary of State.

WAR DEPARTMENT

Signal Office

DEAR SIR:

I have received from you 250 copies of **Western Union Telegraphic Code** ordered for the official use of the War Department. The adoption of the official vocabulary of the International Convention of Berne and the elimination of words calculated to cause errors in transmission are important details which will add largely to the value and the success of the code.

Yours truly,

A. W. GREELY,
Brigadier-General, Chief Signal Officer, U. S. A.

MINISTÈRE DES COMMUNICATIONS DE L'EMPIRE DU JAPON

DIRECTION GÉNÉRALE DES POSTES ET DES TÉLÉGRAPHES

SIR:

With reference to your letter of the 25th inst., I beg to inform that the use of the Code Book has now been officially recognized by the telegraph authorities at Aden. Please see our notification No. 243 published in the *Official Gazette* of the 27th inst.

Yours faithfully,

K. KUME,
Director-General of Posts and Telegraphs.

SERVICE DES POSTES ET DES TELEGRAPHES AUX INDES ORIENTALES NEERLANDAISES

DEAR SIR:

I have the honor to acknowledge receipt from you of four copies of the **Western Union Telegraphic Code and International Cable Directory** and according to your request I shall have pleasure in placing in the Post and Telegraph Offices at Batavia, Semarang, Soerabaia and Medan one copy each for public use on demand.

Yours faithfully,

BERMAN,
Inspector-General of Posts and Telegraphs.

FROM THE DIRECTOR-GENERAL OF TELEGRAPHS

SIR:

I have the honor to acknowledge receipt from you of five copies of the **Western Union Telegraphic Code and International Cable Directory** and according to your request I will have them placed in the Government Telegraph Offices at Calcutta, Bombay, Madras and Rangoon, keeping the last for the present with me. The copies in the above Telegraph Offices will be kept for public use on demand. I have the honor to be, Sir,

Your most obedient servant,

JEFF. J. ALLEN,
Deputy Director-General of Telegraphs.

From New-York Tribune

The International Cable Directory Company has just issued its Universal Edition of **The Western Union Telegraphic Code**, which is the most comprehensive and exhaustive work of its kind yet published. The Universal Edition comprises about one hundred pages of technical terms and phrases applicable to various branches of trade and manufacture. This is the first time such phrases have ever been embodied in a general code. A novel feature of the work is the placing of the book in the principal offices of the Western Union Telegraph Company, in all cities and towns of 2,000 population and upward, in the United States and Canada, and also in the offices of the Western Union, Direct United States, Anglo-American, French, Eastern, Central and South American, and other cable companies on both sides of the water, the object being to establish what the name implies—a "Universal Code."

IMPORTANT ANNOUNCEMENT

The INTERNATIONAL CABLE DIRECTORY COMPANY is ever ready to secure for its clients information of value to users of the wires. In return it respectfully suggests that when our readers correspond with firms or individuals whose names are taken from this Register they will accord us the favor of mentioning the name of the publication. If this plan is generally adopted it will work to the common benefit of all concerned.

Die INTERNATIONAL CABLE DIRECTORY COMPANY ist jederzeit gern bereit, ihren Kunden Auskünfte zu beschaffen, die für Benutzer des Drahtdienstes von Wert sind. Als Gegenleistung erbittet sich die Gesellschaft lediglich die Gefälligkeit von ihren Lesern, wenn sie mit Firmen oder Einzelpersonen, deren Namen der International Cable Register entnommen sind, brieflich verkehren, freundlichst den Namen dieser Veröffentlichung erwähnen zu wollen. Findet dieser Plan allgemeine Aufnahme, so dürfte er für alle Beteiligten gemeinsame Vorteile im Gefolge haben.

La INTERNATIONAL CABLE DIRECTORY COMPANY est toujours prête à fournir à ses clients des informations de valeur pour ceux qui se servent des fils. En échange, nous demandons respectueusement à nos lecteurs que, quand ils correspondront avec des maisons de commerce, ou avec des particuliers, dont les noms seront pris au International Cable Register, ils veuillent bien nous accorder la faveur de citer le titre de cette publication. Si ce plan est généralement adopté, ce sera au bénéfice de tous ceux qui y seront intéressés.

La INTERNATIONAL CABLE DIRECTORY COMPANY está siempre dispuesta á obtener informes para sus clientes, que son útiles para los que usan los alambres. En cambio de lo cual deseamos indicar á aquellos de nuestros lectores que tienen correspondencia con casas de comercio ó con particulares cuyos nombres se han sacado del International Cable Register que consideraremos un obsequio que nos obren esta publicación.

Si se adopta este plan en general, quedarán beneficiados todos los interesados.
